

ACRISURE®

Stop working blindly when it comes to extending credit to your customers and get the data needed to make strong business decisions. TradeScore is information that empowers you to sell to customers with confidence by providing an up to date assessment of their creditworthiness. Now, as a special offer through AchieveNext and the CFO Alliance, we are able to provide everyone with up to 5 free TradeScore reports per day from now through the end of the year.

What is TradeScore?

TradeScore is a platform that gives you insight into the creditworthiness of your customers or prospective customers. Our underwriting partner assesses the financial situation of companies, and TradeScore allows you to tap into their data to check a company's overall risk score. The data is different from your average credit report – the unparalleled database of 85M+ companies worldwide is refreshed in real-time by a team of thousands of risks analysts and informed by real-time payment information by the underwriter's credit insurance customers. You will receive a score of Green, Yellow, Orange or Red based on the company's relative risk of non-payment, as described below:

How does TradeScore work?

Search: Enter the name and location of the company you want to trade with.

Select: Our database will return the best matches and you choose the correct one.

Receive: You will receive an instant score of Green, Yellow, Orange or Red based on the company's relative risk of non-payment.

Green (safe)

You can relax, this company is a reliable partner

Yellow (Average risk)

Factor in the risk profile of your partner in the terms of your transaction

Orange (Elevated risk)

Take precautions to protect yourself

Red (Caution)

You may want to ask for an upfront payment

How Do I Access TradeScore?

Send an email to us at info@traderiskgroup.com. In the subject line, type "Tradescore info requested"

Provide us with your company's name and address, and your name, email address and phone number.

Provide us with the complete names and addresses of the companies that you are requesting TradeScore information on.

We will access the system and email the results back to you!

Once we receive it, we will send you the link to set up your login into the TradeScore platform, and you're off and running!
